

GREEN FENCE, our "2-in-1 product"

+

=

Adding privacy and security to your garden in one single day ?

That's easy with our ivied fence *Green Fence* !

Green Fence offers your garden protection and privacy in the blink of an eye.

At installation, your fence is already fully covered with ivy. So there is no need to wait for your hedge to grow: enjoy the immediate security and privacy for your garden, terrace or swimming pool.

Our *GREEN FENCE* in detail

TECHNICAL INFORMATION :

- Dark grey Betafence 3D panels
- Bekafix H-poles – 2 / panel
- Ivy *HEDERA HELIX IBERNICA*

2 MODELS AVAILABLE :

- Length 250 cm x height 100/120 cm
- Length 250 cm x height 180/200 cm

Too long? Nothing a quick go with the angle grinder can't fix !

2 OPTIONS FOR INSTALLATION :

- For a final height of 100/120 cm : trench of 20 x 20 cm
- For a final height of 180/200 cm : loosen the soil and move the turf, create a bank of 5 to 10 cm of soil on each side

- Make sure the planting hole is well drained (*Ivy doesn't like to have wet feet*)
- Remove the pot
- Install the 1st BEKAFIX pole with fast setting concrete mix and clip on
- Place the fence
- And then...

- Install the irrigation system - included as of 10 m (*Gardena compatible*)
- Keep the turf moist during the first 3 months – after that in case of intense heat

Tip : When you squeeze the soil underneath the turf, no more than 2/3 drops should come out.

- Green Fence 250 x 100/120 cm
- Green Fence 250 x 180/200 cm
- BEKAFIX pole – 2/panel
- BEKAFIX clip
- Delivery - *covered truck*
